Moving Price Guide

1. Are these prices a fixed quote?

No. These ranges are a planning guide for standard house moves. Your individual estimate or quote will depend on your belongings, locations, access and requested services.

2. What does the price guide include?

The moving crew and vehicle, standard loading and unloading labour, and a call-out fee. It assumes belongings are packed and ready to move, with straightforward access at both properties.

3. What is charged separately?

Travel, packing labour and packing materials are excluded from these guide prices. Optional services such as furniture assembly, cleaning, storage or insurance are also separate unless expressly included in your quote.

4. How is my final charge calculated?

For hourly bookings, the charge is based on the agreed crew and vehicle rate multiplied by chargeable time, plus the call-out fee and applicable extras. Your personalised quote will explain the charging basis and travel charges. Any expressly agreed fixed-price booking is charged on its agreed scope.

5. What could change the cost?

Additional belongings, stairs, long carrying distances, limited parking, heavy items, waiting or changes to the agreed service can affect time and resources. Please disclose these when requesting your quote so we can plan and price accurately.

6. Is insurance included?

No. Please check that your belongings have suitable transit cover, or contact us about insurance options before moving day.

7. How do I confirm my booking?

Submit your enquiry through “Get my moving quote”. Our team will review the details and confirm availability and pricing. Submitting an enquiry does not confirm a booking. Our full booking terms and conditions apply.

For full details, please read our Terms and Conditions
